Australian Risk Application - Testimonial

Tim and Mike from ARA have been associated with Direct Couriers for in excess of 13 years.

They together with their team bring a wealth of knowledge to the transport and logistics space offering tailored innovative insurance solutions.

An “outside the box” viewpoint in approaching our protection, added with super-efficient back office service is a product of ARA we are now accustomed to.

If you are thinking of seeing what the market has to offer my recommendation would be to give Tim or Mike a call.

Yours sincerely

Barry Reichman
Managing Director
